

## REMARKS

The specification is amended above to insert a reference to related cases.

A Typographical error is corrected in Table 13. The amendment to the chemical structural formula of compound 106 is supported by the description in Example 106 pages 178-179 of the specification.

Early allowance of the claims is requested. Should the Examiner believe that a conference with applicants' attorney would advance prosecution of this application, he is respectfully invited to call applicants' attorney.

Respectfully submitted,
